

ENVIRONMENTAL SCIENCE MINOR

Program Description

The Minor provides a foundation in environmental science with interdisciplinary coursework focusing on Earth's physical spheres and the biosphere. Upper level courses focus on the applications of core knowledge to specific subdisciplines.

Requirements

Code	Title	Hours
BIOL 131	General Biology: Cells	4
or BIOL 132	General Biology: Organisms	
CHEM 115	General Chemistry I	5
NSCI 103	Environmental Science	3
Select one of the following:		4
NSCI 102	Gr Lakes Region: Geology & Res	
GEOL 121	Physical Geology	
NSCI 116	Introduction to Oceanography	
Select at least three additional credits of EVRN course(s) at the 300 level or higher from the following:		3
NRES 304	The Human Environment	
BIOL 337	General Ecology	
NRES 345	Limnology	
BIOL 420	Evolutionary Analysis	
NRES 470	Restoration Ecology	
NRES 475	Aquatic Entomology	
ECON 307	Environmental Economics	
GEOG 306	Cultural Geography	
POLI 342	Internatl Environmental Policy	
GEOL 334	Hydrologic Sys: Sur/Grd Water	
Any EVRN course at the 300 level or higher		
Total Hours		19

A minimum gpa of 2.00 or higher is required for this minor.
