

MATHEMATICS MINOR

Program Description

The minor in Mathematics can be used to strengthen mathematical foundations or quantitative analysis skills. These skills can support any other degree on campus, and are especially useful when the student intends to pursue a more theoretical, quantitative, or analytical job in their field. Students will complete Calculus I and II, a statistics course, and can choose 2-3 upper level courses that will best fit their intended career path.

Requirements

Code	Title	Hours
MATH 151	Calculus I	4
MATH 152	Calculus II	4
MATH 207	Prin of Statistical Methods	3
or MATH 308	Probability and Math Stats	
Additional Math Courses ¹		
Total Hours		11

¹ Select additional mathematics courses numbered MATH 215 Fund Concepts of Mathematics or higher for a minimum of 21 credits with a minimum of six credits at the 300/400 level.
